ARE YOU READY FOR EVEN MORE OFFBEAT FUN?

Confuse and impress total strangers, friends, loved ones, and your pets... well, maybe not your pets, but everyone else!

Available immediately is our small but constantly growing lineup of buttons and keychains.

Our designs feature the good, the bad, the cute, and the stupid- we're sure that you'll get a kick out something.

All buttons are 1.5" in diameter unless specified. Keychains are acrylic dome 2" x 1", with solid lug mounting and thick key ring construction. They'll definitely hold up to some serious abuse!

Take a swing by our web store to see the whole lineup today!

NEW DESIGNS CONSTANTLY BEING ADDED

We are trying to get in the habit of adding at least one new button design each week.

Keychain updates are less frequent as they take considerably more time to prepare. Check in here or at the web store for updates!

SHOW ME SOME PICTURES ALREADY!

Here's a sampling of what's available:
